Brigid Riley, Executive Director

Protecting, maintaining and improving the health of all Minnesotans

June 8, 2009

Matthew Bernard, MD
Director, The Center Clinic
Kasson Mayo Family Practice Clinic
411 West Main
Kasson, MN 55944

Dear Dr. Matthew Bernard:

We are pleased to inform you that the 2009-2011 application your organization submitted for a Planning Special Project (FPSP) grant has been approved for funding by the Minnesota Department of Health. For the period July 1, 2009 through June 30, 2011, your agency will be awarded a grant. Final award amounts will be determined based on any required revisions to your application. You will be contacted in the near future by Gary Greenfield, FPSP Grants Coordinator, to discuss any questions and to finalize your approved budget. Awarded amounts are based on projected state allocations for state fiscal years 2010 and 2011. Any changes to those allocations will impact the total amount available for your two year award.

The FPSP grant application process was competitive. Forty-nine applications were received for a total of \$15,637,851. This exceeded the funding available. According to Minnesota law, all applications were funded in rank order from highest to lowest until all available funding was exhausted.

To complete the award process and permit work and reimbursement to begin under the grant, you will execute a grant agreement with your agency after the fiscal year 2010 budget is approved. Work should begin under this grant, until the grant agreement has been fully executed. Any work currently incorporated into the grant agreement as grantee's duties, will be the work plan for the grant application or a revised work plan.

If you have any questions concerning this award letter or the grant agreement please contact Gary Greenfield, FPSP Grants Coordinator, at 651-201-3743 or Gary.Greenfield@state.mn.us.

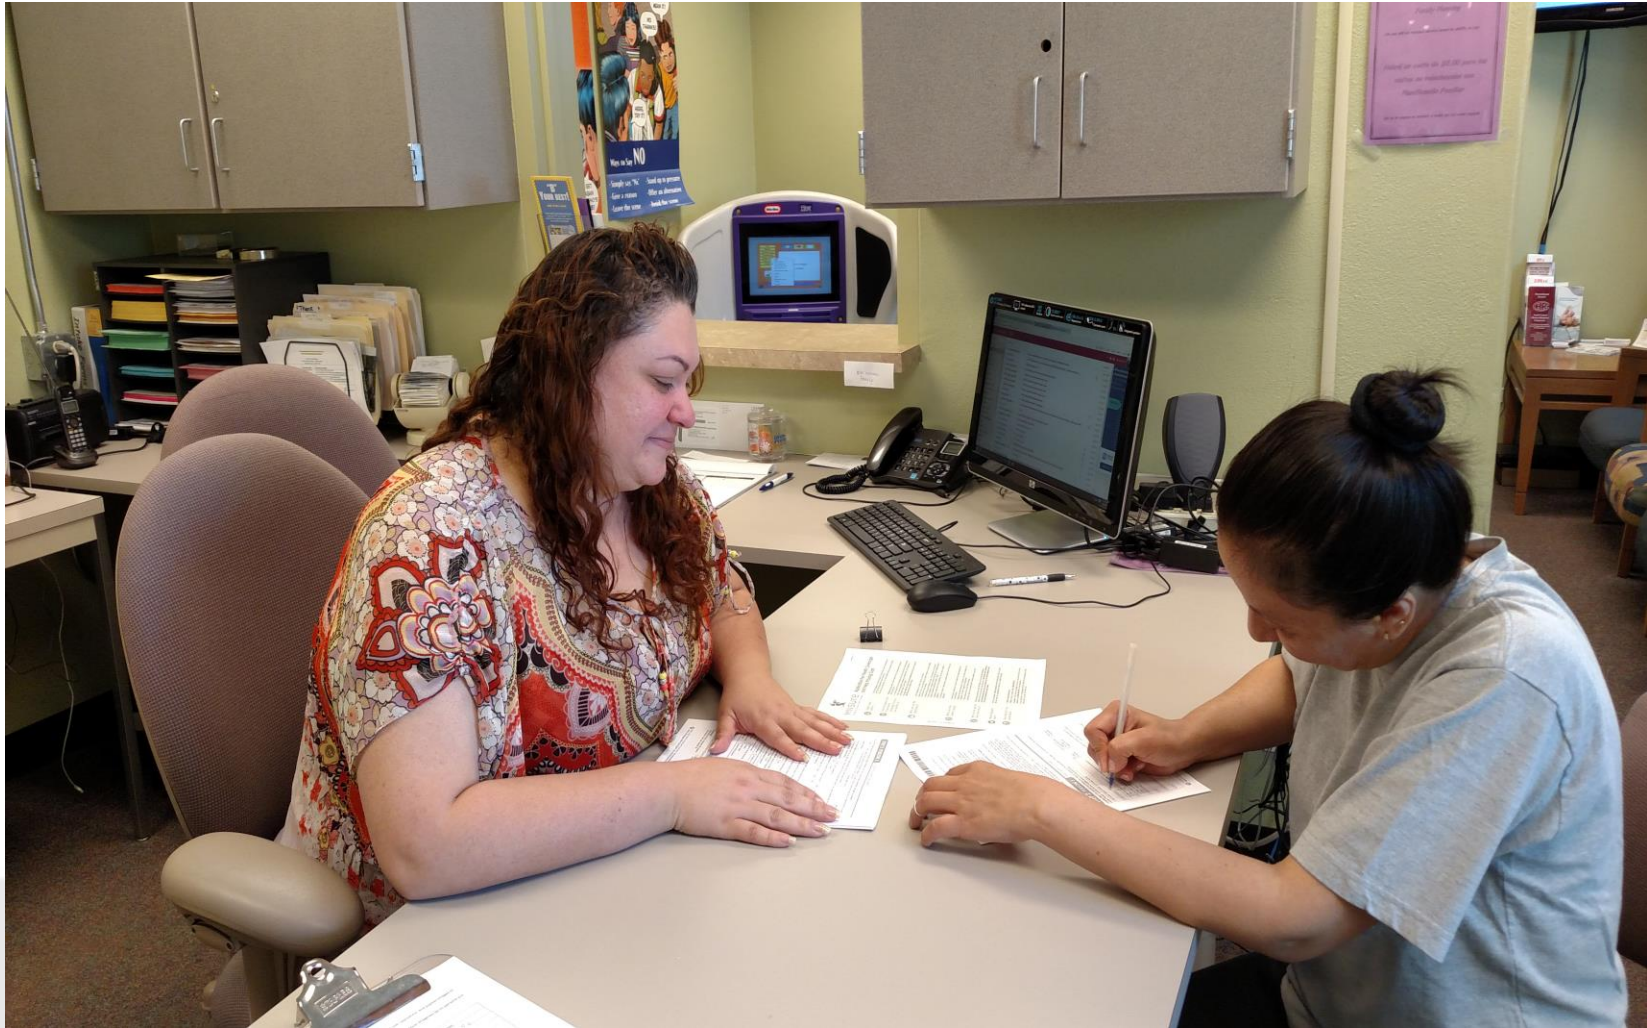

Sincerely,

Jeanne M. Danaher
Deputy Commissioner
